APPROVAL OF STATE ENGINEER

For other protests see file.

This is to certify that I have examined the foregoing application,

and do hereby grant the same, subject to the following limitations and

This permit is issued subject to all existing rights on the conditions: source and particularly subject to that certain ruling of the State Engineer, dated June 8, 1951, "In the Matter of Applications Nos. 12791 and 12792 in name of P.K. Christman". It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittees well due to other ground water development in the area. A substantial weir or other type of measuring device must be installed and measurements of water use kept. The State retains the right to regulate the use of the water herein granted at any and all times. The amount of water to be appropriated shall be limited to the amount

which can be applied to beneficial use, and not to exceed 2.8

with the understanding that pumping operations of cubic feet per second, either of permittees two wells, or from a combination of the two wells, is not to exceed the above amount.

Actual construction work shall begin on or before November 21, 1951

Proof of commencement of work shall be filed before December 21, 1951

Work must be prosecuted with reasonable diligence and be completed on or before November 21, 1952

Proof of completion of work shall be filed before December 21, 1952

Application of water to beneficial use shall be made on or before

November 21, 1953. Proof of the application of water to beneficial

use must be filed with State Engineer on or before December 21, 1953

Proof of commencement of work filed NOV 21 1951 WITNESS MY HAND AND SEAL this 28th day
